

QUARTERLY REPORT OF CHARITY COMMITTEE

Work of Secretary for Three Months Is Shown in Detail

Following is the report of the Charity Committee of the board of trade, made by the secretary, Miss Esther Cummings, to the board of directors of the board of trade at its meeting Thursday night, for the three months ending March 31:

"The subscriptions and collections received since January 1st, 1911, amount to \$414.75, whereas the expenditures on account of groceries, meals and lodgings, clothing, transportation, house rents, caring for the sick, care of children, telegrams and incidentals, including salary of secretary, stationery, postage and printing, amount to \$475.80. This marked an expenditure of \$61.05 more than the amount collected since January 1st, to be deducted from the balance which was on hand on December 31st, 1910.

Aid to Families.

Since January 1 fifty three new cases of families and individuals have been placed on record and help has been given them in various ways by the Charity Committee. Some of these have required help each month, but in other cases no expenditure of money was necessary, although practical help was given them by furnishing clothing or obtaining temporary employment in order that they might contribute to their own support.

Among these fifty three cases there were twenty families, eleven cases of illness and accident, (two tubercular cases), and twenty eight looking for work. Destitution in the remaining cases was caused by shiftlessness, dissipation and unfortunate circumstances.

Committee "Stands Good."

Sometimes the committee is only asked to stand good for certain parties for a short time when the amounts will be repaid. This we consider a good plan as we not only help such people at the time but it encourages self respect in the thought that they are not indigents. Since January 1 over \$50.00 has been repaid to the committee by such parties.

Temporary employment was secured for two people. Of course work could only be obtained for a day or two in some cases, but even that was encouraging to those who were anxious to find work. Three people were given temporary aid until they found work for themselves, and three parties were furnished with transportation to places where they could obtain employment.

Care of Children.

The care of poor and neglected children has been one of the special duties of the secretary. At the present time there are five children whom we hope to place in good permanent homes or in better surroundings in the near future. More than two hundred calls were made by the secretary during the three months in the interests of charity work, and two hundred and forty articles of clothing were given out, twenty children having been supplied with shoes. Most of the clothing except the shoes was donated, which has been a great saving of expense to the committee.

We wish to thank all those who are contributing to the support of the work in any way whatever.

Respectfully,
Charity Committee,
ESTHER CUMMINGS, Sec.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

PUBLIC HEALTH WILL BE PASTORS' SUBJECT

Guns of Arizona Churches to be Trained on the "White Plague"

Cleanliness is next to godliness and health is a direct result of being clean, in many instances. If arrangements now contemplated can be effected, Sunday, April 30, will be devoted by the churches of the city, and by the medical profession in the district as well, to public instruction on the ever present menace of tuberculosis, its alleviation and prevention. This request has been sent out by the Arizona society for the Prevention of Tuberculosis, to ministers, physicians and prominent laymen of the territory.

Several of the ministers of the city when interviewed yesterday declared their intention of devoting sermons on that day to this great question of public health. It is possible also that the physicians of the district may arrange for a public meeting at which competent authorities will discuss the evil and attempt to arouse public interest in its prevention, care of invalids and suffering resulting from it.

The Society for the Prevention of Tuberculosis has sent out much literature devoted to the subject, from which the ministers can draw general information useful for their sermons.

Another request which has been received in the city for special sermons, was from the executive committee of the Federated Councils of the Churches of Christ, asking that "Arbitration as a substitute for war" be chosen for Sunday, April 2, today. It appears that this will be ignored in Bisbee, the ministers getting the request until it was too late for them to prepare sermons upon this subject.

The Federal Council of the Churches of Christ represent thirty three denominations.

O. K. THEATRE SHOWS THE BEST IN THE MOVING PICTURES

The O. K. theatre always on the look out for the best of everything for its patrons have secured through a great expense, pictures from the famous 191 Ranch of Oklahoma. The greatest ranch in the world. These pictures are made from every day life on the ranch, consisting of the "Full Round Up," "Bucking Broncho," "The Indian Buffalo Hunt," in which two buffaloes are killed by Indians with bows and arrows. Indian camp, war dances, squaws, erecting teepees, skinning and preparing the buffalo for the feast.

Without a doubt the most realistic reproduction of western life ever offered, showing the round up of 70,000 head of cattle, branding and dehorning long horned steers. Cow boy riding, bucking bronchos and wild steers.

Pickett, the dusky demon, jumps from the saddle to the back of a wild steer at full speed, finally throwing him to the ground with his teeth, the most daring act ever attempted by man.

Entirely new, never exhibited in Arizona before. No extra price will be charged for these specialties.

WOULD BE BRIBER IS NOT BISBEE TEACHER

Man Who Offered Los Angeles Official \$100, Teaches Near Douglas

Not a teacher from Bisbee but one of the Douglas pedagogues, was he who offered the superintendent of schools of Los Angeles county, Cal., \$100 for a position as principal of one of the schools under his jurisdiction. It had been reported previously that a Bisbee man had been guilty of this breach of ethics and attempt to bribe a public official.

Superintendent C. P. Philbrook, of the Bisbee schools, received a letter yesterday from Superintendent Mark Keppel, of Los Angeles county, denying the report that a Bisbee teacher had offered him the bribe. The name of the teacher, who has a school in the country a short distance from the Smelter City, was mentioned.

It is probable that Mr. Philbrook will submit the letter to the county superintendent, letting him verify the statement contained in it and take action as he may deem proper.

In his misdeed, Mr. Keppel expresses regret that the Los Angeles paper which first published the story of the attempt to bribe him, failed to include the name of the would be bribe giver, who, he says, should be excluded from the privilege of teaching in either Arizona or California.

HAIR SOFT AS SILK.

New Scientific Treatment Kill's Dandruff Germs, and Makes Hair Soft.

It is an accepted fact, a proven fact, that dandruff is a germ disease; and it is also a demonstrated fact that Newbro's Herpicide kills the dandruff germ. Without dandruff falling hair would stop, and thin hair will thicken. Herpicide not only kills the dandruff germ, but it also makes hair as soft as silk. It is the most delightful hair dressing made. It cleanses the scalp from dandruff and keeps it clean and healthy. Itching and irritation are instantly relieved and permanently cured. There's nothing "just as good." Take no substitute. BOX CANYON WILL BE CAMP GROUND

Krebs Selects Site for Y M C A Annual Camping Party in June

Box Canyon will be the camping ground of the second Y. M. C. A. outing. R. H. Krebs, of the association, has returned from a trip to the Huachuca and picked out the mouth of Box canyon as the most desirable spot for the camp. Near the scene of the camping ground, the walls of the canyon rise perpendicularly for several hundred feet and the walls are resplendent with colors as are those of the Grand Canyon.

The camp this year will have a decided advantage over the camping ground of last year, in that there is plenty of fresh water there. Water had to be taken in kegs on the last summer camping trip. The camping party will leave Bisbee sometime in June and will remain in the mountains for ten days or two weeks, and already there are applications coming in from members and persons outside the association for the privilege of accompanying the party. Any one may go on the trip, whether a member of the association or not.

The camp will be under the management of the association, and the members of the party will submit themselves to a definite routine as to hours of retiring, arising, meals, etc. The cost of the outing to the individual members of the party will be small compared with the cost it would take to visit any of the coast resorts, whose benefits are not so compared with the exercise and fresh air of the Huachuca.

DEMOCRATIC PROGRAM.

WASHINGTON, April 1.—A legislative program was adopted at a caucus of the democratic members of the house, which is expected to confine the coming extra session of congress to the popular election of senators, Canadian reciprocity, tariff revision, investigation of governmental departments, congressional reapportionment; statehood for Arizona and New Mexico, general deficiency appropriation; District of Columbia legislation, publicity of campaign contributions.

COX ELUDES SERVICE.

CINCINNATI, O., April 1.—Promoter Hunt today, acting on a rumor that Geo. B. Cox was at Laughery Island, Ind., called up Governor Marshall on the telephone and asked him what steps would be necessary to detain Cox. The governor's legal clerk informed Hunt that it would be necessary to send a representative to the county in which the resort is located and make affidavit that Cox was eluding service of the latest indictment, and Hunt decided not to take further action.

ROYAL THEATRE IS OFFERING PICTURES OF RARE MERIT

"The Valentine" is the title of some very laughable pictures shown tonight at the Royal. A general mix up, in which is shown the comedy side of life, as it actually happens some times in reality. This popular region picture house is becoming famous for its comedy pictures, that never fail to produce a hearty laugh.

Not comedy alone, however, delights the patrons of this popular house. Moving pictures of decided educational value are shown every time there is a change of program. Tonight those who attend the Royal will witness some thrilling scenes connected with the famous French Reign of Terror, showing activity of the revolutionists and realistic happenings at the Tuilleries. This alone is worth far more than the price of admission.

"MUTT AND JEFF IN RENO."

This is the chance of a life time for those who have become acquainted with our two heroes Mutt and Jeff, through the genius of Bud Fisher.

By special arrangement, these two funny people will be at the Orpheum theatre the night of April 14, at which time they will give the people of Bisbee a chance at first hand, to become infected with their quaint, if absurd humor. The musical comedy, "Mutt and Jeff in Reno," will abound with fun, not one tear is it, unless it be the tear of mirth. Further no ice of this will be given Tuesday morning.

and stringing barbed wire entanglements with feverish haste. The federals are expected to arrive Wednesday.

Williams at Front

Although he is commander in chief, Williams remains at the front with his men at Packard, leaving the garrison here, composed almost entirely of Mexicans, in command of Salinas.

Leyva accepted his reduction with anything but grace. Up to today he denied that he had been supplanted. But when he went among the saloon keepers this afternoon seeking tribute, he was followed by agents of Salinas, who instructed him not to contribute to the deposed commander.

Wants to "Beat It"

"He is no longer general here," said an insurrecto to one of the saloon keepers. "Don't give him any thing. He wants money to 'beat it' back across the line. He would have gone last night if he had had the money to pay his fare."

Lack of funds seriously hampers Leyva in his attempt to get away, for, once across the line, he faces the necessity of evading the American civil authorities who are prepared to arrest him for violation of the United States neutrality.

The organization by Berthold and Leyva of an armed expedition to Holtville last January, prior to their attack on Mexicali, has caused secret service men to spend much time at the former place. Evidence was unearthed, it is said, that will warrant the arrest and trial of several American insurrectos if they are ever driven across the line by the forces of war.

C. N. Richards, an American captured at Tecate last week and taken to Ensenada by federals, was first reported to have been an attaché of the office of United States District Attorney McCormick, of Los Angeles, but it is now believed to have been a private detective employed at Los Angeles by the Mexican government. The federals mistook him for an American insurrecto.

PANAMA BONDS MARK NEW ERA

ernment bonds will then be put out with a sufficient rate of interest attached to make them attractive to the citizens who care to invest and who have been reluctant to entrust their money to the business vicissitudes of the private individual, bank or corporation.

Judging from the comment made by bankers and heads of large financial institutions, it is the expectation that the government has issued its last bond bearing the circulation privilege. It is thought that the government's finances are on the eve of a great change and that congress

eventually will authorize a great central bank on the Aldrich plan, such as is in existence in England, France and other European countries. The issue of notes consequently will not be on the security of the government, but against the general assets of the institution that issues them. This, it is thought, will bring about the investment feature of the bonds.

Stumbling Block.
The stumbling block, however, to this scheme is the redemption of the \$700,000,000 worth of national bonds now outstanding. It may be that the government will issue new bonds with the investment feature, bearing a higher rate of interest, in order to redeem the circulation bonds now outstanding.

Gossip in the money marts is to the effect that in the event these bonds would drop below par, consequently the finances and credit of the nation would be impaired. Under the proposed new order of things such a scare to the bond investing public would be unknown. Bonds issued without the circulation privilege would cause the price of bonds with the circulation privilege to become higher. Banks consequently will seek bonds with the circulation privilege, and this, it is expected, will help the market for two per cents, now already distributed among the banks.

Financiers the country over are interested to see just what the investing public will think of the new Panama bonds, and what price they will command in the market. From conservative estimates obtained from leading bankers in New York by the treasury, it is believed the new bonds will at least bring about 2 per cent above par, and perhaps a little more when they are advertised by the treasury department.

Los Angeles and Arizona mining men are backing a syndicate formed Wednesday last to exploit the mining and scenic greatness of the Grand Canyon of the Colorado. The company is to be known as the Phoenix and Grand Canyon Development company, and one of the first things it will attempt is the building of an automobile road between the canyon and Phoenix. The highway will be more than 270 miles in length. It is to be mapped out by W. W. Bass, proprietor of the Bass camp. Contracts for the work of construction will be let shortly to Phoenix and southern Arizona firms, and the worst sections of the route whipped into shape for the traffic of the coming summer's influx of tourists.

PROTECT THE HEALTH OF YOURSELF AND FAMILY.

Pope's Herb is prepared to provide a dependable household remedy, based upon the principle of purity of blood insuring freedom from disease. It is a medicine for maladies such as Rheumatism, Liver Complaints, Constipation, Fever and Ague, Female Disorders, Indigestion, Lumbago, Kidney Derangements, Catarrh, Slick and Nervous Headaches, Loss of Appetite and all ailments arising from inactivity of the Liver and Kidneys.

It is a purely Herbs, Barsks and Roots Compound. It is put up in chocolate coated Tablets, pleasant and easy to take, (or can be dissolved in water.)

Mrs. J. C. Meade of Hyattsville, Md., says:

"For years I have suffered with Backache, Headache, Neuralgia, and Nervousness and extreme Fatigue. I tried many remedies without relief. Four months ago a grateful friend induced me to write to Pope Medicine Co., Washington, D. C., for a box of Pope's Herb Compound Tablets. The very first dose of two tablets gave me relief. I used not quite a \$1.00 box and I am entirely cured of the pain in my back and have no more headache."

Dr. J. V. Hennessey, a prominent Physician and Surgeon of Albany, N. Y., in part says:

"As a Blood Purifier, Liver Kidney and System regulator I prescribe Pope Medicine Co. of Washington, D. C., Herb Compound, as I have done for the past 20 years, and I have found it to be a great remedy, which seldom if ever fails. There are thousands of letters from users of Pope's Herbs, that have been benefited and cured by its proper use. Pope's Herb Compound Tablets are put up 200 in a box, 'six month's treatment,' and will be sent post-paid on receipt of \$1.00. Each box contains a printed guarantee binding us to refund the purchase price if the remedy fails to benefit, also full directions."
